A tool and die setter is usually responsible for setting up and running a number of machines in a factory or workshop. These machines are then operated by other workers, usually in situations where large-scale production techniques are used. Tool and die setters work in factories and workshops, which can be noisy at times, although the work ...

~~How to become a Tool and Die Setter~~

Job setters and die setters, also known as setup operators or setup workers, prepare machine tools and production tools for others to use. They set up jigs, fixtures, cutting tools, and stamping tools on machines that are used for the shaping of metal. They also instruct machine tool operators on how to use the machines, and they make minor repairs and adjustments as needed during production.
